U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
On March 9, 1975
- Export shipments in
Current Marketing Year
- Daily Sales reported
March 10 - 18, 1975

--As Reported by Exporters

Readers of this release are cautioned that it reports sales commitments outstanding as of the date indicated, all of which are subject to modification, deferral or cancellation by mutual agreement of the parties. It is unlikely that all reported quantities will be exported. Our experience with this monitoring system suggests that sales are apt to exceed exports, sometimes by substantial amounts, during periods when supplies are in balance with expected demand. Actual shipments to date may provide a more reliable measure of current export activity. A meaningful export projection is not obtainable by the simple device of adding outstanding sales commitments to exports to date.

U.S. DEPARTMENT OF AGRICULTURE, FOREIGN AGRICULTURAL SERVICE

EXPORT SALES REPORT

Comments on release of March 20, 1975 (based on reports from exporters during the week ending March 9, unless otherwise noted):

SPECIAL NOTE: This issue includes revised 1974/75 export estimates on page 2.

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1974/75 increased by 94,600 metric tons (MT). Commitments to the European Community (EC) declined by 119,200 MT, the second consecutive weekly decline, while commitments to Japan and Korea increased by 130,400 MT and 54,100 MT, respectively.

For 1975/76 shipment, an additional 50,600 MT have been committed to India, bringing the total commitment to India for next season to 1.15 million MT.

Feedgrains: The apparent export commitment for 1974/75 declined by 231,500 MT. The total corn commitment fell by 224,700 MT largely because of a decrease in the commitment to the EC of 427,400 MT. Partially offsetting that decline were increased commitments to Greece (63,400 MT), Canada (50,100 MT), and Peru (50,600 MT). Sorghum commitments increased by 50,300 MT with some decreases being more than offset by a 90,000 MT higher commitment to India.

Rice: The apparent export commitment for 1974/75 rose by 19,700 MT, less than half the weekly rate necessary to meet the revised export estimate of 2,325 million MT.

Soybeans: According to the Prospective Plantings Report, as of March 1, farmers intended to plant 56.6 million acres of soybeans in the eastern and southern soybean producing states. The intentions indicate soybean production ranging from a high of 1,550 million bushels (average yield of 28 bushels per acre) to a low of 1,450 million bushels (average yield of 26 bushels per acre). The USDA soybean supply-disposition estimates for 1974/75 have been revised. The soybean crush is now estimated to decline further to 725 million bushels and exports to decline to 465 million bushels. The estimated soybean carryover on September 1, 1975, has been increased to 135 million bushels. The first official FAS report of 1974 Soviet soybean production indicates output dropped to 357,000 MT from a 1973 level of 424,000 MT. USSR soybean production is concentrated in the Soviet Far East and mills there have annual requirements for 500,000 - 600,000 MT. In two previous years of sharp production shortfalls, the USSR purchased U.S. soybeans for processing in the Pacific region.

Soybean Meal: For 1974/75 the soybean meal export estimate has been reduced to 4.5 million MT because of reduced foreign consumption. However, foreign soybean crushing is expected to recover in 1975/76 because of an anticipated improvement in feeding margins and expanding animal numbers.

Soybean Oil: Domestic disappearance of soybean oil continues to lag, and the previous USDA estimate has been reduced to adjust to the slackness in demand. Export demand for soybean oil continues to hold up well, and 590,000 MT are now projected to move overseas. Lower prices, an anticipated improvement in the general economic situation, and the prospective reduction in the 1975/76 cottonseed crop should expand demand for soybean oil in 1975/76.

Cotton: Activity was light during the week and centered on Japan and South Vietnam. Export shipments totaled 88,000 running bales (RB) while the apparent export commitment rose by 46,000 RB with staples above 1-1/16" the most popular.

Faced with much lower prices, U.S. cotton producers indicated in the March intentions report that they intended to plant 4 million acres less cotton this season than in 1974/75. Apparently many foreign producers feel the same. Significant reductions are currently indicated in Turkey, Mexico, Central America, Iran, and Greece.

OUTSTANDING EXPORT SALES AND EXPORTS - MARKETING YEAR 1974-75
